ABSTRACT

One hundred and forth-eight journal and book citations of Maslow's publications dating from 1932 to 1970 are included in this bibliography. The chronological approach used gives the reader insight into the development of Maslow's self actualization theory and, further, into humanistic psychology. Entries which give complete bibliographic information are arranged alphabetically by title in each section. The sections are organized by date of publication. Citations are also given for three works projected for publication in late 1973. (SJM)
